Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 1-30 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Wada et al (US 6,144,259). See figures 1-12 and column 11, lines 7-13 of Wada et al.

Response to Arguments

3. Applicant's arguments filed August 30, 2001 have been fully considered but they are not persuasive. Applicant asserts in the antepenultimate through the ultimate lines in the third full paragraph on page 5 the following: "Wada on the other hand only has on continuous depth along the slider body, which corresponds to the generation of only one negative pressure bearing are along the body." It is unclear how Wada does not have two depths because figure 1 clearly shows, as required by the claims "a first structure having a first depth and extending from a leading edge of the body to the leading edges of the first and second rails and between the first and second rails". The first structure is structure 100 and includes edges 131 and 133. Figure 1 also clearly shows, as required by the claims "a second structure having a second depth disposed adjacent to said first structure and between said first and second rails, said second depth being lower than said first depth". The second structure is structure 130.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
